The DJ BAG Hard BackPack is a shock-resistant backpack for popular 2-channel DJ controllers and mixing consoles up to 50 cm wide, up to 30 cm deep and up to 8 cm high. The special feature of the DJ BAG Hard BackPack is that it embodies all the advantages of a shock-resistant case, the convenience of a backpack with soft straps, a separate pocket for a laptop up to 16 inches, with a compartment for a tablet and mesh pockets for wires and other necessary accessories.

MAIN FEATURES

- Waterproof.
- SBS waterproof water-repellent zippers.
- TSA Luggage lock.
- The presence of convenient and practical external pockets for documents, keys, bank cards on backpack straps.
- Plenty of interior space and pockets for various applications with a total volume of 24 liters.
- Comfortable backpack straps do not put pressure on the shoulders, and the ergonomics of the backpack relieve stress from the back.
