
PALMIN
Bags and accessories for musical equipment

ABOUT US

OUR COMPANY has been producing DJ bags and accessories for several years. In 2020 it was decided to expand production and create a new line of bags for musicians. This is how PALMIN was born: Bags and accessories for musicians.

PALMIN MANUFACTURING highlights a new material, Oxford Vinyl 900D, which has a very high coefficient of wear resistance, reliability and, most importantly, resists temperature changes well. This material in production is cut under a press and not with knives, as is usual. Thanks to this, every detail, even the smallest, has perfect precision, which in turn provides a high quality of the final product.
