Walkasse introduces this new concept of DJ Pick n' Pluck foam flight case to its range of products to offer an economical and configurable product for the most demanding DJs / Producers. Its construction is in wood and aluminum with a very low weight and the interior of the Dj case is protected with 4mm foam and incorporates inside two layers of Pick n 'Pluck foam (pre-cut foam rubber) that allows you a total configuration from space. With the new DJ Pick n ' Pluck foam cases you can create the perfect space for your controller, wiring and other DJ accessories.

Main Features

- Pick n'Pluck foam is an open cell polyurethane foam that has pre-cut 1.5cm x 3,0cm cubes to allow you to remove those cubes and create custom spaces for your equipment.
- Butterfly locks.
- ABS handles with padding cushion
- Large locking hinges
- Side Buckles to transport as shoulder bag
- Rubber feet
